EXECUTIVE PROFILE

I'm a frontend developer with one year of experience building projects and learning web tools. I'm focused on creating great experiences for users as well as provide new solutions. I'm absolutely motivated to collaborate in ambitious projects.

PROJECTS

LA REGINA - ITALIAN RESTAURANT

Main webpage of an italian restaurant with reservations interface, food menu, wine&cocktail menu and gallery of plates

POKEDEX - API

Developed with PokeAPI, data displayed with responsive design, sections to search by name or select a pokemon from a list.

WHEATHER-REACT-APP

It uses two APIs which return longitude and latitude of a declared position as well as the current weather, also added a map to search locations.
