PROFESSIONAL PROFILE

I'm a web developer with over a year of experience in technologies like HTML5, CSS3, and JavaScript, as well as frameworks and libraries like React, Redux, and TailwindCSS. Also proficient in Git, Webpack, SASS, Node, Express, JWT and PostgreSQL. I have problem solving skills and have worked in teams. My soft skills include communication, empathy and conflict resolution. I seek to apply my knowledge in a dynamic environment and contribute to the success of the team.

PROJECTS

YARDSALE E-COMMERCE - FULLSTACK

E-commerce web application that allows you to explore products, filter by category, shopping cart service and personal orders section, create a personal account through JWT, cookies and management of personal data from a database.

⊘ *Link to website*   ○ *Link to repository*

ALIFAKE - MOBILE E-COMMERCE

E-commerce platform similar to Aliexpress that offers to search for specific products, show their characteristics, prices and descriptions, add items to the shopping cart and wish list, view history and make different purchases.

⊘ *Link to website*   ○ *Link to repository*

LA REGINA - ITALIAN RESTAURANT

Custom web page for an Italian restaurant with its own reservation interface, menu of available food, gallery of dishes, plus a wine and cocktail menu.

⊘ *Link to website*   ○ *Link to repository*

VANILLA POKEDEX - API

Display of JSON data with responsive design that provides dedicated sections to search pokemons by name or to select them from a list so as to watch their stats.
